PROFESSIONAL SUMMARY

Results-driven Junior Backend Developer with hands-on experience in building scalable and secure backend systems using Node.js, Express.js, and MongoDB.

Skilled in developing RESTful APIs, real-time applications (WebSockets), and authentication systems (JWT & OAuth).

Completed industry internship experience and built multiple production-level backend projects.

Actively seeking a Junior Backend Developer role to contribute to real-world systems and grow in a professional environment.

WORK EXPERIENCE

Backend Development

01/2026 – 04/2026

Senew Tech

- Developed and deployed RESTful APIs using Node.js and Express.js.
- Designed MongoDB schemas and optimized queries for performance.
- Implemented authentication and security best practices.
- Collaborated with frontend teams for API integration.

Backend Development Trainee

07/2025 – 08/2025

ByteLift Solutions

- Built and tested backend APIs using Node.js, Express.js, and MongoDB.
- Worked on database design and backend debugging.

EDUCATION

Bachelors in Information Technology

SKILLS

Languages & Core

- JavaScript (ES6)
- TypeScript
- OOP

Databases

- MongoDB
- PostgreSQL

Other

- WebSockets
- Stripe
- Nodemailer
- Cloudinary

Backend

- Node.js
- Express.js

Tools & Tech

- Git
- Postman
- Firebase

Basic

- HTML5
- CSS

CERTIFICATES

- Mastering Data Structure & OOP — Udemy
- Developing Back-End Apps with Node.js and Express — IBM

LANGUAGES

English

Professional Working Proficiency

Urdu

Native or Bilingual Proficiency

PERSONAL PROJECTS

E-Learning Platform

12/2025 – 12/2025

- Built a backend e-learning platform using Node.js, Express.js, MongoDB, and Mongoose with JWT authentication, role-based access, and Google OAuth.
- Developed CRUD APIs for courses, lessons, quizzes, and enrollments with enrollment-based access control, Cloudinary uploads, and email notifications using Nodemailer.

Running Tribe

11/2025 – 12/2025

- Built a full-featured backend for a running community app using Node.js, Express, and MongoDB.
- Implemented authentication (Email/Password + Google OAuth), real-time chat with Socket.IO, and Stripe payments for premium memberships.
- Developed APIs for events, runs, posts, and role-based access with admin middleware.

Social Media App

06/2025 – 07/2025

- Built a backend-only social media application with Node.js, Express.js, and MongoDB.
- Implemented JWT-based secure login and CRUD APIs for posts and users.
